Te Pūkenga

Nau mai haere mai ki Te Pūkenga Welcome to Te Pūkenga

Te Pūkenga is building a national network of integrated learning in Aotearoa New Zealand that better meets the needs of learners, their whānau, employers and the community.

By bringing together on-the-job, on campus and online learning, Te Pūkenga is creating a network that gives learners more choices and flexibility in what, where and how they learn.

Please note our programmes of study are currently under review as part of the reform of vocational education training. The objective is to provide one programme for Te Pūkenga that is portable, consistent, and more closely aligned with the needs of industry. As the review is ongoing, this prospectus is correct at the time of publishing but the courses outlined may change over time.

Kia ora huihui mai tātou.

It's my pleasure to be able to provide an introduction in this 2023 prospectus and welcome you to Te Pūkenga, nei te reo rāhiri e rere atu ana – nau piki mai, nau kake mai ki Te Pūkenga.

In 2020, the government reviewed the vocational education system in Aotearoa New Zealand and made some significant changes for how it would work in the future.

One of those changes was the creation of Te Pūkenga, New Zealand Institute of Skills and Technology. The change meant that all of the country's Kura Tini, Institutes of Technology and Polytechnics such as Open Polytechnic as well as some of the country's Industry Training Organisations which focus on work-based learning such as apprenticeships, will now sit within one organisation – Te Pūkenga.

By bringing these organisations together, it means we can create a national network of on-the-job, on campus and online learning opportunities that give learners more choice and flexibility in what, where and how they learn throughout Aotearoa New Zealand.

For those of you thinking of enrolling with Open Polytechnic for study in 2023, this means you are going to be enrolling with a national organisation and you will receive a qualification from Aotearoa New Zealand's largest education provider, Te Pūkenga.

You'll still be able to study by distance learning but you'll have the additional benefits that come from being part of a national network – such as more support, more study options and increased ability to switch between different types of learning if your circumstances change.

A national network means we can plan better for the future needs of Aotearoa. We want to make sure that when you enrol in a programme, you are gaining skills that are needed by Aotearoa and around the world – giving you more job security and ultimately increasing your opportunities for success.

Our transformation is a journey that will take time but one thing is clear, everything we do is centred around our learners and their whānau. We have a relentless focus of equity and we're setting the foundations to deliver to Te Tiriti o Waitangi and its principles, and most importantly to the aspirations of Māori learners, their whānau, and iwi/hapū.

Throughout this prospectus you may notice that a number of programmes are changing.

We are unifying programmes to make sure they are consistent across the country. This means if your circumstances change, you'll be able to continue with your study rather than having to start again. It's just one of the ways we are working to make learning fit around life, rather than making life fit around learning.

Whether you're looking to continue with your study or try something fresh, we look forward to you joining Te Pūkenga whānau and being part of this transformational journey with us.

Mā te kimi ka kite. Mā te kite ka mōhio. Mā te mōhio ka mārama - Seek and discover. Discover and know. Know and the world of light is yours to behold.

If you have any questions or want to find out more about Te Pūkenga, visit our website tepukenga.ac.nz or email us at info@tepukenga.ac.nz – we'd love to hear from you.

A New Zealand that's continually learning to succeed

Open Polytechnic is New Zealand's leading distance and online learning provider. Our organisation was created to ensure adult learners could gain the skills needed for their current or future career, without having to attend full-time study at a physical campus.

Around 30,000 learners each year take advantage of the flexibility of distance and online learning to gain the skills they need to progress in their jobs and careers. We are one of the largest educators of the current workforce and our graduates can be found in every major workplace throughout the country.

With distance learning you can make study fit with your needs. We give you the flexibility to develop a study routine that works with the rest of your life, so you can fit study around work, family, sport or community commitments.

As an Open Polytechnic learner

Studying by distance learning doesn't mean you'll be on your own. We'll be with you every step of the way to support, mentor and assist you with your studies and study planning.

Our qualifications

We offer over 100 qualifications and around 1000 courses. We work with industry to develop most of our programmes and courses, ensuring the skills and knowledge you gain are as relevant to your field as possible.

All our qualifications meet rigorous and transparent quality standards. They have been approved by the New Zealand Qualifications Framework.

Our range of qualifications allows learners to staircase from certificate to diploma and degree level. They include technical and vocational training through to higher professional and continuing education.

Like face-to-face study, distance learning courses have start and end dates, and work to get through in between. So, you'll need discipline and motivation to do the work and complete your assignments on time. The benefit is you decide on your timetable. It's up to you to work out when and where you study, how much to take on, and how to divide up your study time.

students have access to anywhere, anytime learning.*

Kia ora, welcome

Whether you want to learn new skills to help you in your current career, or to change careers, Open Polytechnic has a range of qualifications that will help you achieve your goals.

We are an international leader in the field of flexible distance learning. Over our 70-year history we have helped learners throughout New Zealand and overseas gain qualifications that are highly valued by employers from a wide variety of industries.

We know the commitment it takes to fit study around work and family commitments. If you enrol with Open Polytechnic you will have access to a wide range of support services that are designed to help you learn, when and where it suits you.

All the best with your studies.

“Studying by distance was really nice... I didn’t want to move away from Taranaki to study because I like being near my family and I didn’t want to give up my job. I also enjoyed being able to study in my own time.”

KYLIE FILBEE-CRONIN
BACHELOR OF BUSINESS (ACCOUNTING)

“Work was my priority and I had to put the hours in working long days from Monday to Friday. I managed to get through it by dedicating my weekends to studying and getting assignments done, although I did have to make some sacrifices in terms of going out with my son and husband. Lucky for me, they were always very understanding and supportive.”

EMMA HARRIS
BACHELOR OF BUSINESS (ACCOUNTING) AND
NEW ZEALAND DIPLOMA IN BUSINESS (LEVEL 6)

“You have got to keep going, no matter what. Don’t let anything let you think otherwise, don’t just accept what is in front of you. Learn from the mistakes you make and keep on going. Setting yourself a goal and keep on trying to achieve in the end it pays off, keep persevering and you will get there. Once you finish, you will have knowledge and skills to take with you forever.”

SHARON GORDON
BACHELOR OF BUSINESS (ACCOUNTING) AND
GRADUATE DIPLOMA IN PROFESSIONAL ACCOUNTING

“For me, the Bachelor of Business, majoring in management, was a four-year journey of part-time study and full-time work. Reflecting on what was an achievement of such a long-term goal is something I’m really proud of.”

JEFF GOSS
BACHELOR OF BUSINESS (MANAGEMENT)

“Studying has helped me by making me more confident in my role, more successful in my promotion and giving me the ability to deal with everyday situations that I can be in the workplace.”

NIKKI LIDDELL
BACHELOR OF BUSINESS (MANAGEMENT)

“The benefits of studying at the Open Polytechnic fall more on a personal level for me, feeling a sense of pride and achievement that I'd accomplished this on my own. I had a lot of support, but it ultimately came down to my hard work, determination and a lot of coffee. There was a great sense of pride when my children came to my graduation. I wanted to be an example for my children so they could see that if their Mum can get her degree, then they should be able to as well.”

TAI DANIEL-TEUHEMA
BACHELOR OF BUSINESS (MANAGEMENT)

“I wish more people would study because the benefits are fabulous. Plus, I’m now in a long-term industry and the opportunities will continue to grow as I move through my career.”

JENNIFER COXON
NEW ZEALAND DIPLOMA IN LEGAL EXECUTIVE STUDIES (LEVEL 6)

“It was so easy to do my courses because of how they set out and explained the material. Personally, I preferred study online compared to a campus because you don’t feel as rushed and you can focus easily in your own space.”
