 Te Pūkenga

Nau mai haere mai ki Te Pūkenga Welcome to Te Pūkenga

Te Pūkenga is building a national network of integrated learning in Aotearoa New Zealand that better meets the needs of learners, their whānau, employers and the community.

By bringing together on-the-job, on campus and online learning, Te Pūkenga is creating a network that gives learners more choices and flexibility in what, where and how they learn.

Please note our programmes of study are currently under review as part of the reform of vocational education training. The objective is to provide one programme for Te Pūkenga that is portable, consistent, and more closely aligned with the needs of industry. As the review is ongoing, this prospectus is correct at the time of publishing but the courses outlined may change over time.

Kia ora huihui mai tātou.

It's my pleasure to be able to provide an introduction in this 2023 prospectus and welcome you to Te Pūkenga, nei te reo rāhiri e rere atu ana – nau piki mai, nau kake mai ki Te Pūkenga.

In 2020, the government reviewed the vocational education system in Aotearoa New Zealand and made some significant changes for how it would work in the future.

One of those changes was the creation of Te Pūkenga, New Zealand Institute of Skills and Technology. The change meant that all of the country's Kura Tini, Institutes of Technology and Polytechnics such as Open Polytechnic as well as some of the country's Industry Training Organisations which focus on work-based learning such as apprenticeships, will now sit within one organisation – Te Pūkenga.

By bringing these organisations together, it means we can create a national network of on-the-job, on campus and online learning opportunities that give learners more choice and flexibility in what, where and how they learn throughout Aotearoa New Zealand.

For those of you thinking of enrolling with Open Polytechnic for study in 2023, this means you are going to be enrolling with a national organisation and you will receive a qualification from Aotearoa New Zealand's largest education provider, Te Pūkenga.

You'll still be able to study by distance learning but you'll have the additional benefits that come from being part of a national network – such as more support, more study options and increased ability to switch between different types of learning if your circumstances change.

A national network means we can plan better for the future needs of Aotearoa. We want to make sure that when you enrol in a programme, you are gaining skills that are needed by Aotearoa and around the world – giving you more job security and ultimately increasing your opportunities for success.

Our transformation is a journey that will take time but one thing is clear, everything we do is centred around our learners and their whānau. We have a relentless focus of equity and we're setting the foundations to deliver to Te Tiriti o Waitangi and its principles, and most importantly to the aspirations of Māori learners, their whānau, and iwi/hapū.

Throughout this prospectus you may notice that a number of programmes are changing.

We are unifying programmes to make sure they are consistent across the country. This means if your circumstances change, you'll be able to continue with your study rather than having to start again. It's just one of the ways we are working to make learning fit around life, rather than making life fit around learning.

Whether you're looking to continue with your study or try something fresh, we look forward to you joining Te Pūkenga whānau and being part of this transformational journey with us.

Mā te kimi ka kite. Mā te kite ka mōhio. Mā te mōhio ka mārama - Seek and discover. Discover and know. Know and the world of light is yours to behold.

If you have any questions or want to find out more about Te Pūkenga, visit our website tepukenga.ac.nz or email us at info@tepukenga.ac.nz – we'd love to hear from you.

A New Zealand that's continually learning to succeed

Open Polytechnic is New Zealand's leading distance and online learning provider. Our organisation was created to ensure adult learners could gain the skills needed for their current or future career, without having to attend full-time study at a physical campus.

Around 30,000 students each year take advantage of the flexibility of distance and online learning to gain the skills they need to progress in their jobs and careers. We are one of the largest educators of the current workforce and our graduates can be found in every major workplace throughout the country.

With distance learning you can make study fit with your needs. We give you the flexibility to develop a study routine that works with the rest of your life, so you can fit study around work, family, sport or community commitments.

As an Open Polytechnic student

Studying by distance learning doesn't mean you'll be on your own. We'll be with you every step of the way to support, mentor and assist you with your studies and study planning.

Our qualifications

We offer over 100 qualifications and around 1000 courses. We work with industry to develop most of our programmes and courses, ensuring the skills and knowledge you gain are as relevant to your field as possible.

All our qualifications meet rigorous and transparent quality standards. They have been approved by the New Zealand Qualifications Framework.

Our range of qualifications allows students to staircase from certificate to diploma and degree level. They include technical and vocational training through to higher professional and continuing education.

Like face-to-face study, distance learning courses have start and end dates, and work to get through in between. So, you'll need discipline and motivation to do the work and complete your assignments on time. The benefit is you decide on your timetable. It's up to you to work out when and where you study, how much to take on, and how to divide up your study time.

learners have access to anywhere, anytime learning.*

Kia ora, welcome

Whether you want to learn new skills to help you in your current career, or to change careers, Open Polytechnic has a range of qualifications that will help you achieve your goals.

We are an international leader in the field of flexible distance learning. Over our 70-year history we have helped learners throughout New Zealand and overseas gain qualifications that are highly valued by employers from a wide variety of industries.

We know the commitment it takes to fit study around work and family commitments. If you enrol with Open Polytechnic you will have access to a wide range of support services that are designed to help you learn, when and where it suits you.

All the best with your studies.

Dr Caroline Seelig
Chief Executive

Start your journey

Your pathway

We have qualifications ranging from certificate to degree and graduate diploma level to suit you at different stages of your life and career. Some of our qualifications also credit into higher level ones so that you can achieve your goals as stepping stones along the way.

If you need to top up your skills before entering higher level tertiary study, check out our Certificate in Study and Career Preparation and Certificate in Foundation Skills.

We also offer course only options to help you boost your study or professional skills.

Open Courses

You can enrol in and start open courses throughout the year, as they start on the first Monday of each month.

Trimester Courses

Most trimester-based courses start at the same time, but some do have different start dates.

Visit our website for more information and key dates.

Foundation and Bridging

Foundation and Bridging

- Certificate of Achievement in Fundamentals of Mathematics | Level 3
- Communication for Learning | Level 3
- Digital Study Skills | Level 3
- New Zealand Certificate in Computing (Foundation User) | Level 2
- New Zealand Certificate in Foundation Skills | Level 1
- New Zealand Certificate in Foundation Skills | Level 2 | Version 2
- New Zealand Certificate in Study and Career Preparation | Level 4

Certificate of Achievement in Fundamentals of Mathematics (Level 3)

Code → OP3350 Level → 3 Credits → 20

This certificate will introduce you to various aspects of mathematics. It will help you build your confidence in using mathematics. You will gain techniques and strategies commonly used in mathematical problem solving.

Career opportunities

When you complete this programme, you will gain NCEA Level 3 Achievement Standards in Mathematics. It will also give you a basis for further study in mathematics, computing, science or engineering and more.

	Structure: 1 course
	Study type: Open
	Qualification: Certificate

Communication for Learning

Code → OP3606 Level → 3 Credits → 20

This certificate will help you to develop key reading and writing skills and apply these to a chosen field of work or study.

Career opportunities

When you complete this programme, you will gain NCEA Level 3 Achievement Standards.

	Structure: 1 course
	Study type: Open
	Qualification: Certificate

Digital Study Skills

Code → OP3607 Level → 3 Credits → 20

This online programme will help you to develop your digital literacy skills and help you prepare to study in an online environment. It's a good place to start if you want to develop your essential computer skills needed in tertiary study.

Career opportunities

When you complete this programme, you will gain NCEA Level 3 Achievement Standards.

	Structure: 1 course
	Study type: Open
	Qualification: Certificate

New Zealand Certificate in Computing (Foundation User) (Level 2)

Code → NZ4132 Level → 2 Credits → 60

This is an ideal programme if you would like to get an entry-level digital literacy and capability qualification. It will provide you with a range of digital technology foundation skills and you may get employment in a range of general entry-level roles or proceed to further IT-related study.

Career opportunities

This qualification may assist graduates to obtain entry-level positions in a range of industries that require people with digital capability and confidence in the use of a range of digital tools.

	Structure: 4 course
	Study type: Open
	Qualification: Certificate

New Zealand Certificate in Study and Career Preparation (Level 4)

Code → NZ2860 Level → 4 Credits → 60

If you are thinking of taking up tertiary study for the first time, or you have been away from study for a while, then the New Zealand Certificate in Study and Career Preparation (Level 4) is a great place to start. It will get you on the pathway to a career and prepare you for success in the future.

Career opportunities

This qualification provides a pathway into business, applied sciences and social sciences.

	Structure: 3 courses
	Study type: Trimester
	Qualification: Certificate

New Zealand Certificate in Foundation Skills (Level 1)

Code → NZ2861 Level → 1 Credits → 60

This is an ideal programme if you would like to get a head start and gain 60 NCEA Level 1 and 2 credits, including the compulsory literacy and numeracy credits that will assist towards completing NCEA Level 1. This programme will give you confidence in learning and help build basic skills and knowledge, including literacy and numeracy, in a range of simple and familiar contexts.

Career opportunities

Can lead to New Zealand Certificate in Foundation Skills (Level 2) and further study that can lead to employment opportunities.

	Structure: 4 courses
	Study type: Open
	Qualification: Certificate

New Zealand Certificate in Foundation Skills (Level 2)

Code → NZ2862 Level → 2 Credits → 60

This qualification prepares you for study at higher levels. You can get up to 60 NCEA credits by completing this qualification. You can then progress to Level 3 or Level 4 study, including Open Polytechnic’s New Zealand Certificate in Study and Career Preparation (Level 4).

Career opportunities

Can lead to further study at Level 3 or Level 4 and could also lead to employment opportunities.

	Structure: 4 courses
	Study type: Open
	Qualification: Certificate

Bachelor of Teaching (ECE)
Sian Brennan

Celebrating
2021 learner
success

Each year we hold graduation ceremonies in Auckland, Wellington and Christchurch to celebrate our graduates’ study success with their family, friends and fellow learners.

This is a great opportunity for us to meet graduates in person before they embark on their new journeys, be it a new career, further study, or to take their existing career to a new level.

If you’re planning on studying towards a diploma, degree or graduate diploma, we look forward to celebrating your success at graduation.

If you or your family are unable to attend a ceremony, you can still tune in via online live streaming on our website.
